

PRESS RELEASE

Keir Surgical Holds Guinness Record for the World's Largest Scissors *July 31, 2007*

Vancouver, BC – Keir Surgical Ltd., a Canadian surgical instrument company, today announced it has received a certificate from Guinness World Records confirming that it holds the record for the world's largest pair of scissors.

The scissors, measuring 178 cm in length, were unveiled at the 20th National Operating Room Nurses Association of Canada (ORNAC) Conference held in Victoria, BC in April 2007. The Mayor of Victoria, Alan Lowe, was on hand for the unveiling and helped with the official measuring of the scissors.

"Surgical instruments are my passion," said Michael Fish, Keir Surgical's President. "I came up with the idea of creating the world's largest scissors, in this case a pair of surgical sharp blunts, when I was looking through the Guinness Book of World Records with my daughter."

The certificate and the scissors now reside in the reception area of Keir Surgical's head office in Vancouver, BC.

About Keir Surgical Ltd.

Keir Surgical Ltd. is a Canadian owned and operated surgical instrument and supplies company dedicated to providing its customers with quality products and service. Over the course of its 84 year history, Keir Surgical has been supplying Canada hospitals with high quality instrumentation, sterilization containers, cleaning products, and sterile monitoring devices. In December 2006, Keir Surgical was awarded a major surgical instrument supply contract by MedBuy, Canada's largest purchasing organization (GPO) representing over 50 major hospitals across Canada.
